DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, drawn to a surgical tool set.

Group II, claim(s) 12, drawn to surgical centering jig.

Group III, claim(s) 13, drawn to surgical insertion tool.

Group IV, claim(s) 14, drawn to a surgical sensor insertion tool.

2. The inventions listed as Groups I, II, III, and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: each of the claim sets within in the groups are drawn to distinct and separate structure not encompassed by each of the remaining groups (claims) as listed, i.e., each group is drawn to distinct tools and/or tool sets.

3. A telephone call was made to Larry Conner on 11-10-03 to request an oral election to the above restriction requirement, but did not result in contact being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any

Art Unit: 3732

amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
